

Amendments to the Drawings

Please amend the drawings to add the two sheets of drawings appended hereto containing Figures 10A and 10B. These two sheets of drawings were determined by the Office to have been missing from the application papers filed on March 24, 2004. The basis for adding these two drawing figures is applicants' application transmittal which included an incorporation by reference of prior application Serial No. 10/200,265. A copy of the specification, claims, abstract, and drawings in that prior application is enclosed herewith. Since the drawings in the prior application contained the Figures 10A and 10B sought to be added to the instant divisional application, it is believed that applicants' proposed amendment to the drawings contains no new matter.

Remarks

Applicants have amended the claims to cancel claims 31-53, which were prosecuted to allowance in applicants' grandparent application, now issued as U.S. Patent No. 6,423,565.

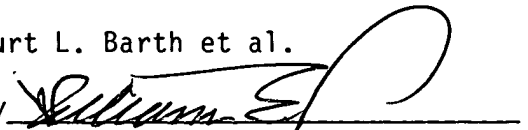

Applicants have also amended the drawings to add Figures 10A and 10B, which the Office has determined were missing from the application papers deposited on March 24, 2004. The basis for this amendment, which is not believed to add new matter, is set forth hereinabove.

It is believed that this divisional application is now in condition for examination on the merits of claims 26-30. Favorable action is accordingly solicited.

Respectfully submitted,

Kurt L. Barth et al.
